

Plaques

Wall-hangings are made-to-order and can be highly variable, depending upon the size and complexity of the lake. I provide an appropriate size/price range, (\$150-\$400 is common) based on each lake's unique characteristics, or can size to fit a budget or dimensional requirement. My **Traditional style** is a solid hardwood panel with a variety of edge options, (round-over, routed, pencil, end caps or back-frame).

Rustic styles include real bark edges, incorporated into solid wood panels, tamarack or birch. A "live" edge with a natural, un-barked edge also available in birch. I build all my own panels from rough lumber, enabling me to carefully select and assemble each wood panel for balance in grain and color.

All carving is performed freehanded with a high speed router, and an accurate representation of the lake basin.

I can personalize any carving by marking a cabin or home location (or other point(s) of interest), labeled as you wish, a free option.

3-D wood prints

3-D wood prints can be created with various content, such as watersheds, the Great Lakes or other landscape features. Layers can include road, hydro, elevation, bathymetry and more. Solid hardwood frames. Inquire about possibilities for your area of interest.

Tables

Each table is built to your specifications in material of your choice. Common projects include coffee, end and sofa tables. Either **glass topped** or **resin poured**. Options include drawers, shelf, staining, etc...

Made to order

Contemporary designs

Adjoining lakes and/or land features can be incorporated into your project, based on suitability. \$800 - \$1600 typical table price range.

I create my work from my home in Two Harbors, MN, along Lake Superior's North Shore. I am a self taught artisan, and my work is an original creation. I am a one-man shop and personally perform every aspect of every project.

I'm happy to consider whatever project, or gift idea you might have. Provide me lake name and location, and I do the rest!

Most projects details can be confirmed via email.

High quality plaques and custom tables in solid domestic hardwoods

Since 1991

www.lakecarvings.com

the Work

No CNC, no laser, no laminations, veneer or plywood. A router does the bull work, but it's free-hand guided. Just old-fashioned, hand-eye carving. Beauty and detail is far superior to automated processes.

the Wood

I use solid, domestic hardwoods such as: **Cherry, Oak** (white and red), **Alder, Birch** (red and white), **Tamarack, Hickory** and more. I build each panel from rough, kiln-dried stock.

I determine a suitable range of sizes and prices options based upon each project's details. I can provide a full range of options, or size to fit a budget or space requirement.

Conference table makeover

the Inquiry

Provide me your lake name, location and your desired contact info. I'll do some research and reply with options for your consideration. You can specify wood and edge profile, or let me choose.

the Deal

I require a deposit to confirm. At completion, I will share photo of work and invoice, and ship upon final payment. If you have a specific timeline to meet, let me know so that I can be certain delivery is timely.

Bar tops

Cribbage Boards 11" x 11" or 8" x 15" \$165

3 track cribbage boards also display as wall hanging. Brass, copper and stainless pegs stow away.

18" x 24"
birch/cherry
22" high

Inquire today for details about your project idea. Just provide me lake name and contact info. No lake is too big/small.
